A tooltip explaining another tooltip

Cards Against UX

The CEO's personal preference

Cards Against UX

One loud customer

Cards Against UX

"Can you make it pop?"

Cards Against UX

"We already know our users"

Cards Against UX

The CEO

Cards Against UX

Five leading survey questions

Cards Against UX

A stakeholder's gut feeling

Cards Against UX

Something sales heard at a conference

Cards Against UX

Feedback from somebody's spouse

Cards Against UX

A button labelled "Continue"

Cards Against UX

One usability test participant

Cards Against UX

A meeting about planning another meeting

Cards Against UX

Seventeen rounds of approval

Cards Against UX

"Let's circle back"

Cards Against UX

Research with your mum

Cards Against UX

A red button that means "Next"

Cards Against UX

A persona based on assumptions

Cards Against UX

A last-minute executive request

Cards Against UX

Asking three coworkers

Cards Against UX

A focus group made entirely of developers

Cards Against UX

The highest-paid opinion in the room

Cards Against UX

A green button that means “Delete”

Cards Against UX

A sample size of one

Cards Against UX

A journey map nobody reads

Cards Against UX

Cherry-picked analytics

Cards Against UX

A screenshot from a competitor

Cards Against UX

An anecdote disguised as data

Cards Against UX

AI

Cards Against UX

A hamburger menu on desktop

Cards Against UX

Confirmation bias with sticky notes

Cards Against UX

A modal inside a modal

Cards Against UX

An 87-step onboarding flow

Cards Against UX

A form that deletes everything after an error

Cards Against UX

"We have a pretty flat hierarchy here, we only use primary buttons."

Cards Against UX

Unmoderated testing without a script

Cards Against UX

A darker dark pattern

Cards Against UX

Designing in Excel

Cards Against UX

Moderating an UX Workshop but without any users

Cards Against UX

Creating a journey map and getting lost

Cards Against UX

Loading up that cognitive load

Cards Against UX

Just go with the user flow

Cards Against UX

Interviewing a very attractive user with confirmation bias

Cards Against UX

Because we spent all our budget on that feature nobody needs

Cards Against UX

Push pixels like a bodybuilder

Cards Against UX

Contrast issue

Cards Against UX

Accessible, but not by everyone

Cards Against UX

All Buttons

Cards Against UX

My skip-level meeting was so productive. I skipped it, my manager skipped it, and the problem still got solved.

Cards Against UX

The meeting had twelve people. Eleven were there to nod. The twelfth wasn't invited and made the decision anyway.

Cards Against UX

They couldn't give me a raise, so they gave me "Senior." I'm now paid the same amount, but with spanish dignity.

Cards Against UX

“Intuitive”

Cards Against UX

“User-friendly”

Cards Against UX

“Seamless”

Cards Against UX

“Best practice” UX Graz Cards Against UX	“Just a small change” UX Graz Cards Against UX	“Low-hanging fruit” UX Graz Cards Against UX
“Quick win” UX Graz Cards Against UX	“Human-centred” UX Graz Cards Against UX	“Data-driven” UX Graz Cards Against UX
“Delight” UX Graz Cards Against UX	“Frictionless” UX Graz Cards Against UX	“Make it more modern” UX Graz Cards Against UX

"Loading up that cognitive load"

Cards Against UX

"A darker dark pattern"

Cards Against UX

A chatbot nobody asked for

Cards Against UX

An AI feature searching for a problem

Cards Against UX

A summary of a summary

Cards Against UX

Automatically generated user personas

Cards Against UX

Artificial intelligence and natural confusion

Cards Against UX

A button that says “Generate”

Cards Against UX

An AI assistant with no access to useful data

Cards Against UX

Replacing research with synthetic users

Cards Against UX

"Because AI" on the roadmap

Cards Against UX

A hallucination presented as an insight

Cards Against UX

Forty-seven Figma variants

Cards Against UX

A temporary exception

Cards Against UX

Another shade of brand blue

Cards Against UX

A component called "Final Final 2"

Cards Against UX

A design token named greyishBlueNew

Cards Against UX

A custom component that already exists

Cards Against UX

The happy path and nothing else

Cards Against UX

An inaccessible brand colour

Cards Against UX

Eight slightly different date pickers

Cards Against UX

A design system nobody is required to use

Cards Against UX

A component documented only in Slack

Cards Against UX

Pixel-perfect inconsistency

Cards Against UX

All buttons

Cards Against UX

A CAPTCHA nobody can solve

Cards Against UX

Make it pretty!

Cards Against UX

Accessible, but not by everyone.

Cards Against UX

An error message that says “Something went wrong”

Cards Against UX

A disabled paste function in the password field

Cards Against UX

A CAPTCHA nobody can solve

Cards Against UX

A login wall before showing the price

Cards Against UX

A hidden unsubscribe link

Cards Against UX

A hamburger menu on desktop

Cards Against UX

A green button that means “Delete”

Cards Against UX

A red button that means “Next”

Cards Against UX

Your mom’s data

Cards Against UX

A designer coded it

Cards Against UX

Go home

Cards Against UX

AI can do this

Cards Against UX

A UX professional got lost

Cards Against UX

The nephew of the CEO wants it to be dark

Cards Against UX

Let’s just schedule a short meeting

Cards Against UX

A meeting that should have been an email

Cards Against UX

A QR code drawn by hand

Cards Against UX

Let’s decide tomorrow

Cards Against UX

CatGPT

Cards Against UX

I liked the color

Cards Against UX

Make the logo bigger

Cards Against UX

We will do this after the first iteration

Cards Against UX

We will fix it in post-production

Cards Against UX

We don’t have a design system

Cards Against UX

Is this on production?

Cards Against UX

A translation error

Cards Against UX

Another one will fix it

Cards Against UX

We are a family here, small and dysfunctional

Cards Against UX

How does it look with zero users?

Cards Against UX

Doctor Strange

Cards Against UX

Is the microcopy final?

Cards Against UX

A CEO’s dream

Cards Against UX

The AI said so

Cards Against UX

A developer’s hunch

Cards Against UX

Let’s use a tooltip

Cards Against UX

Taylor Swift

Cards Against UX

I don’t know. It’s not my problem

Cards Against UX

It was running when I tried

Cards Against UX

A chatbot will explain it

Cards Against UX

Sweet, sweet silence

Cards Against UX

White space is the enemy

Cards Against UX

Leonardo da Vinci

Cards Against UX

A unicorn that poops rainbows

Cards Against UX

The guy we fired did it

Cards Against UX

Does it scale?

Cards Against UX

Do we need a free plan?

Cards Against UX

Username or email or both

Cards Against UX

Make negative space positive

Cards Against UX

The CEO’s vibe coded prototype

Cards Against UX

More data

Cards Against UX

Add another column

Cards Against UX

Sign up

Cards Against UX

Hallway conversations

Cards Against UX

A misunderstanding

Cards Against UX

We know our users

Cards Against UX

Ignore an incoming call

Cards Against UX

A PowerPoint presentation with a lot of text in circles

Cards Against UX

Make it bigger

Cards Against UX

Expertise

Cards Against UX

I need coffee before I can decide

Cards Against UX

An icon that looks like Michael Jackson and makes "heeehee" when you press it

Cards Against UX

It feels like work

Cards Against UX

Make mockups

Cards Against UX

AI workflow

Cards Against UX

Changing all the back buttons to a random icon

Cards Against UX

We didn’t need a design

Cards Against UX

Good user experience

Cards Against UX

Tom Hanks

Cards Against UX

Blame the user

Cards Against UX

It works on my machine

Cards Against UX

Improve usability

Cards Against UX

I am the user

Cards Against UX

Can you hear me?

Cards Against UX

Ask AI

Cards Against UX

We need a new tool later because no one understands our old tool

Cards Against UX

We can explain it in the user manual

Cards Against UX

Handcrafted AI skill

Cards Against UX

A two-day workshop with no outcome

Cards Against UX

Working overtime to afford therapy for working overtime

Cards Against UX

A playground icon

Cards Against UX

Running on 12 cups of coffee

Cards Against UX

14 meetings about a brand name, but no time for research

Cards Against UX

A deadline that nobody agreed was realistic

Cards Against UX

It needs more contrast

Cards Against UX

Thank you, we have this in our system since 20XX

Cards Against UX

We don’t have resources for this

Cards Against UX

Open in a new private window

Cards Against UX

Burnout, but with a quarterly bonus

Cards Against UX

Five minutes of silence

Cards Against UX

More icons

Cards Against UX

We should build a skill for that

Cards Against UX

Your mom

Cards Against UX

A UX decision overturned by one loud stakeholder

Cards Against UX

A loud minority

Cards Against UX

An inspirational LinkedIn poll after mass layoffs

Cards Against UX

So let’s schedule a meeting

Cards Against UX

Standards? Yes, we have many

Cards Against UX

Two buttons with ‚Continue‘ and ‚Next‘

Cards Against UX

50 shades of [insert brand color]

Cards Against UX

8===D

Cards Against UX

;D

Cards Against UX

A disagreement about the button

Cards Against UX

I don’t have time for this shit

Cards Against UX

Do an AI user test

Cards Against UX

A developer thinks the user needs it

Cards Against UX

Cards Against UX

Cards Against UX

We could not afford user research, so we used _____ instead.

UX Graz Cards Against UX

We added a tooltip to explain _____.

UX Graz Cards Against UX

The stakeholder looked at the prototype and asked for _____.

UX Graz Cards Against UX

The CEO’s feedback was surprisingly focused on _____.

UX Graz Cards Against UX

The fastest way to make an interface intuitive is _____.

UX Graz Cards Against UX

Nothing says “user-centred design” like _____.

UX Graz Cards Against UX

The design system failed because of _____.

UX Graz Cards Against UX

The accessibility issue will be fixed by _____.

UX Graz Cards Against UX

Our usability test revealed that users really want _____.

UX Graz Cards Against UX

After three workshops, we finally agreed on _____.

Cards Against UX

Our new AI strategy consists mainly of _____.

Cards Against UX

The user clicked the wrong button because of _____.

Cards Against UX

The research findings were ignored until _____.

Cards Against UX

We increased conversion by removing _____.

Cards Against UX

Our persona’s main goal is _____.

Cards Against UX

I asked for a raise but _____.

Cards Against UX

This feature was described as “delightful,” but users called it _____.

Cards Against UX

Our MVP only needs login, logout and _____.

Cards Against UX

The dark pattern has been renamed _____.

Cards Against UX

The project would have succeeded if it were not for _____.

Cards Against UX

You know the UX maturity is low when you see _____.

Cards Against UX

I have 99 issues, but _____ ain't one.

Cards Against UX

If AI was a designer, she /he be would be like_____ .

Cards Against UX

It could not wait until Monday morning, my boss called me in the middle of the night to say: _____ .

Cards Against UX

The new Figma update enables designers to _____.

Cards Against UX

After we presented our designs, everyone applauded and said _____.

Cards Against UX

What smells?

Cards Against UX

I quit designing career after ____

Cards Against UX

How did you solve the problem?

Cards Against UX

The button with the microcopy "_____ ", boosted our conversions by 200%.

Cards Against UX

Our users want _____, but the roadmap prioritises _____.

Cards Against UX

We replaced user research with _____ and called the result _____.

Cards Against UX

The perfect onboarding experience combines _____ with _____.

Cards Against UX

To improve accessibility, we added _____ and removed _____.

Cards Against UX

Every successful design workshop needs _____ and _____.

Cards Against UX

The stakeholder requested _____, so we delivered _____.

Cards Against UX

I went to my boss and asked for a raise, he said I have to _____, so that I can _____..

Cards Against UX

The difference between junior and senior is that the junior asks ____? and the senior asks _____?

Cards Against UX

I did brainstorming with AI and we should now _____.

Cards Against UX

There is no documentation but _____.

Cards Against UX

I hate users because _____.

Cards Against UX

Can we use the space for _____?

Cards Against UX

Our CPO replied _____.

Cards Against UX

If your ex was a famous person, who would it be?

Cards Against UX

It’s not consistent, but _____.

Cards Against UX

Until when do you need this change?

Cards Against UX

We created an AI skill for _____.

Cards Against UX

The PM’s mom. UX designers blame users for _____.

Cards Against UX

We need a _____.

Cards Against UX

Six people are typing _____.

Cards Against UX

Sales is asking for _____.

Cards Against UX

What does UX need?

Cards Against UX

Cards Against UX

Cards Against UX
